Our award-winning crew will help you achieve your home improvement goals each step of the way with honest, expert advice!

Diagram of a Ferris Home Improvements Job

WEATHER

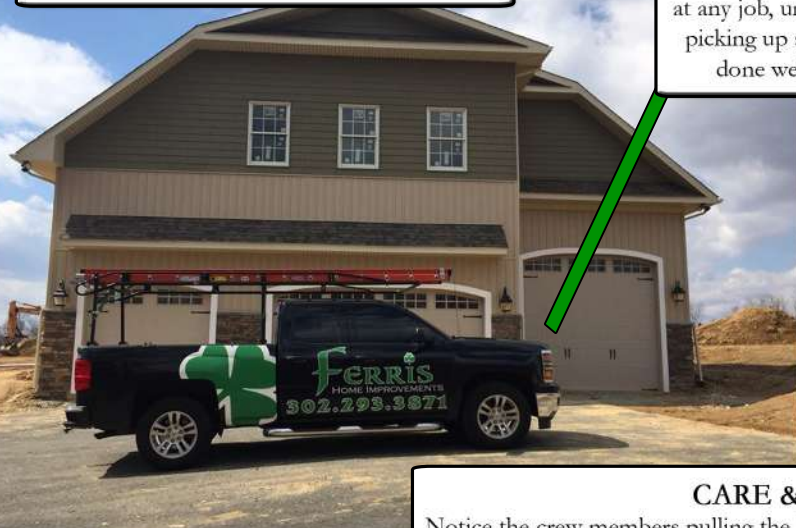

Skies might loom overhead, but we complete the job in weather-secure stages. We play it safe to protect your investment and ours.

FHI TRUCK

You can spot one of our FHI trucks at any job, unless, of course, it's off picking up supplies to get the job done well and on schedule.

CREW

A highly skilled, knowledgeable crew that is reliable, professional, and easy to talk to.

CARE & CLEANUP

Notice the crew members pulling the blue tarp to protect the homeowner's front lawn and the neatly stacked materials for the job. We care and cleanup as much as possible as we go because we know the job site is not just a house, it's a home.

BEFORE

This outdated kitchen was too small and dark to serve as an inviting place to prepare meals and gather. A wall dividing the dining space breaks up its potential.

MC mid continent CABINETRY

AFTER

A polished finished product with clean, straight lines and a more inviting, functional design. The finished product looks great to come home to and to potential homebuyers.

We have an A+ rating from the Better Business Bureau (BBB), an excellent Angie's List rating, and Platinum Preferred Contractor status from Owens Corning for a reason--we deliver excellent service and quality. Pictured above are a few residential customers in the Wilmington, DE area. Upper left is a roof & siding job, upper right is a gutter cleaning, and the bottom row features a before & after of a kitchen renovation. This kitchen remodel involved tearing down a dining room wall to modernize and improve the beauty & value of this Pike Creek, DE home. Whether its roof or your kitchen, the weather or the design, we are always striving to protect your investment and maximize renovation value while on your job. We know that one job often generates many new jobs because neighbors tell us that they were thoroughly impressed by how they had seen us working in the neighborhood; namely, by our quality work, professional crew, and respect for the home and neighbors. Our hard work has earned the honor of Ferris Home Improvements being voted Delaware's #1 Home Improvement Company several years in a row, as well as being nationally recognized by Owens Corning in 2016 as the top roofing company in the Mid-Atlantic and Winner of the 2016 System Champion & 2016 Bright Star Awards.
